R for computational sciences

quickStart: Viz, pivot, join, models

Flipped Workshop

Aug. 26, 2-4pm

1. Please **complete** the pre-workshop **survey** (check your email)
2. **You watched the videos** (Viz, join, pivot, & regression) and **have questions**
3. We will start exercises and answer questions as the countdown reaches zero...

Duke University: Land Acknowledgement

I would like to take a moment to honor the land in Durham, NC. Duke University sits on the ancestral lands of the Shakori, Eno and Catawba people. This institution of higher education is built on land stolen from those peoples. These tribes were here before the colonizers arrived. Additionally this land has borne witness to over 400 years of the enslavement, torture, and systematic mistreatment of African people and their descendants. Recognizing this history is an honest attempt to breakout beyond persistent patterns of colonization and to rewrite the erasure of Indigenous and Black peoples. There is value in acknowledging the history of our occupied spaces and places. I hope we can glimpse an understanding of these histories by recognizing the origins of collective journeys.

Self-reported tool usage

Respondent's use of a tool / technology / technique

Legend:
- Daily
- Weekly
- Monthly
- Several Times per year
- Less than once per year
- Never

Y-axis categories: coder, viz, version_ctrl, cli, rdbms

X-axis: Percent (0%, 25%, 50%, 75%, 100%)

Source: CDVS Pre-workshop survey

Self-reported R skills

Respondents feel capable of completing a Tidyverse task
Source: CDVS Pre-workshop survey

Satisfaction with current visualization tool workflow
self reported

Unsatisfied	Neutral	Satisfied	Very Unsatisfied
